# Test Your Well Water

## *Free Nitrate Testing*

**Tuesday, March 10, 6—8 pm**

**Collinsville Community Center, 5113 Huston Rd, Collinsville**

### Who should participate?

If you answer **yes** to any of these questions, please have your well water tested.

- 💧 Is your well more than 40 years old?
  - 💧 Is it less than 50 feet deep?
- 💧 Has it been more than a year since it was tested?
  - 💧 Does an infant, a pregnant woman, or anyone elderly drink the water?

### Collect Your Sample

Use a clean jar, and rinse out any soap at least 3 times.

Remove any screen or filter from your faucet.

Run water for five minutes to clear the lines and bring in fresh water.

Collect your sample within an hour of the event, or keep it chilled.

### Bacteria Testing

During the Well Water event, the first 40 attendees will receive the supplies and training they need to collect a sample to be tested for bacteria.

### Test Your Well is provided by:

Butler & Preble Soil & Water Conservation Districts

Miami University: IES

Miami Conservancy District
